Scott Rights, Sewer Engineer
Brent McFeaters, Township Manager
Elizabeth Krause, Zoning Officer
Dusty Keller, Operator
Five (5) Citizens

PUBLIC COMMENTS

None

APPROVE THE MINUTES

Gary Longenecker made a motion seconded by Kerry McCrary to approve the July Sewer Meeting minutes. All approved.

APPROVE THE FINANCIAL REPORT

Kerry McCrary made a motion seconded by Gary Longenecker to approve the Financial Report. All approved.

OPERATOR'S REPORT – Dusty Keller

Dusty Keller reported the following to the Board:

1. The Plant is running very well. There were no major breakdowns at the treatment plant or the pump stations during the month.
2. The FSWA staff is continuing to work with the engineer to provide him with the data he needs for the NPDES permit renewal
3. For the month of July, the average daily flows through the plant was 77,800 gallons. There was 4.71” of rainfall during the month.
4. The fence around the Logistics Park pump station was hit again despite the concrete barriers that the Union township staff installed. The truck knocked the concrete barriers over which then hit the fence.

ENGINEER'S REPORT – Scott Rights

The following is an update on work completed by our office during the past month

1. Wastewater Treatment Plant & Collection System Issues: Based on telephone conversations with the operator, no issues to report.
2. National Pollutant Discharge Elimination System (NPDES) Permit Renewal for WWTP: We continue to work with FSWA on collecting the sampling data for the permit renewal application. The sampling is expected to be completed by end of month at which time we can tabulate the results and finish the application.
3. Land Development Projects: The following is an update on proposed land development projects and reviews as they relate to sanitary sewer.
 - a. Freightliner of Lebanon (SE corner of SR 0072 and Old Forge Rd): The subdivision and land development plans propose connection to the Township's sewer main in Old Forge Rd. opposite Love's Truck Stop. As reported last month, all sanitary sewer comments have been satisfactorily addressed. Our understanding is the Developer has revised his request seeking Final Land Development approval to Preliminary Land Development approval.
 - b. Home 2 Suites Hotel (Fisher Ave.): The subdivision and land development plans propose a grinder pump with connection to the existing 3-inch low pressure sewer running parallel to the back of the property. As reported last month, all sanitary sewer comments have been satisfactorily addressed. *(No change to project status since last meeting).*
 - c. Logistics Park Phase 2 Deed of Dedication: The Developer completed the as-built drawings for the low-pressure sewer main. The Township's Solicitor is preparing the deed of dedication documents and agreements for the Developer's execution.
4. Standard Sanitary Sewer Construction Specifications: Our office met with the Township administration staff during the month to review and edit the administrative procedures section. The draft technical documents and drawing details are near completion and will be delivered to the Township for review and comment prior to the meeting.

If anyone has questions regarding this report, please do not hesitate to call. Otherwise, we can discuss at the meeting. Thank you.

SOLICITOR'S REPORT – ATTY. ANDREW RACE FOR ATTY. PAUL.BAMETZREIDER

Atty. Race said he had nothing to report.

NEW BUSINESS – None

OLD BUSINESS – None

OTHER COMMENTS – None
